

Argentina, August 10, 2020

To Mrs. President of the WHFSS

DR. CHRISTINE DENIS

By hand

I hereby, the undersigned, Dr. Helga Sager de Agostini, President of the FUDESA (Foundation for the Development of Sterilization in Argentina) and founder of the graduate degree in Pharmacist Specializing in Sterilization in Argentina, in 1996, write to you and through you to whom it may concern, for the purpose of proposing the Pharmacist Specializing in Sterilization Carolina CHIODINI for the Executive Committee (EC) of the WHFSS.

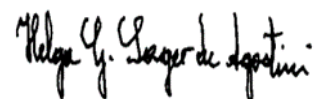

The reason for this communication is the call made by the WHFSS for the period autumn 2020-autumn 2024.

I let you know the excellent academic studies of Carolina CHIODINI; her ability, determination, performance and development achieved on the subjects regarding sterilization in the different provinces of Argentina. The continuous and persistent promotion of activities referred to sterilization in Argentina, organizing training courses and teaching classes in the subject for such purposes; the numerous lectures she has attended nationally and internationally about topics she knows and develops in depth; and the continuous interest she shows about issues regarding sterilization. Moreover, she has been part of the staff of professors in the courses at the National University of Cordoba of Pharmacist Specializing in Sterilization and Sterilization Technician.

As hereinbefore described, I propose The Pharmacist Specializing in Sterilization, Carolina CHIODINI as a professional expert, being highly qualified for such purposes and widely fulfilling the requirements for the call of the period 2020-2024.

Without further ado, I look forward to your news.

Yours faithfully,

Dr. Helga Sager de Agostini.  
President FUDESA ARGENTINA
