Dear WFHSS,

I am writing to express my interest in joining the Executive Committee of WFHSS as it is my ambition to try and bring the world closer together and having a uniformed approach to sterilising across the globe.

I currently sit on the Federal SRACA committee and Vice President of the NSW SRACA branch, in these roles it has allowed me to develop as a Sterilisation practitioner and advocate. I am working with Clinical Excellence Commission in developing new core competencies for employed technicians to raise the role status and increasing the knowledge with a major focus of incorporating the current Australian and New Zealand Standards.

I am passionate about education and hold the position of lead teacher for the nationally recognised Certificate III in sterilisation services for Technical Education and Further Education (TAFE) College, Kingswood campus. I am also looking at writing a learning plan for a certificate IV in sterilisation services for NSW to give technicians another qualification for a supervisory or team leader role.

One of the biggest challenges I constantly notice is the lack of reprocessing information from companies when it comes to providing these instructions. I believe that if there is any chance of making a difference or a slight change then being a part of a global committee will provide the best opportunity to bring the issue to light and try advocate a change.

I would be grateful for the opportunity and wholeheartedly dedicate myself to the committee and industry. I hope that if I am successful that I will be able to contribute in the best way possible.

Thank you for considering my application

Regards

*David Bellamy*
