

Athens, August 24<sup>th</sup>, 2020

Recipient: WFHSS

### **Letter of motivation**

Dear colleagues,

I am interested in applying to join the WFHSS Executive Committee because I want to expand and improve my knowledge and skills in Central Sterilization. I already have experience in the field, as I work as the Head Nurse/Manager of the Central Sterilization Department at the “Attikon” University Hospital of Athens, Greece, since 2014.

Furthermore, my motive to join the Executive Committee is also linked to my scientific involvement with the subject, as I am a PhD candidate at the Nursing Faculty of the University of West Attica (Athens, Greece) and my thesis subject is “Investigation of the degree of compliance of public hospital central sterilization department staff with international guidelines”.

Additionally, I am interested into sharing my experience with fellow nurses from other countries and learn from their respective experiences, in order to facilitate the discussion around Central Sterilization as a professional and a scientific field.

Thank you in advance for considering my application.

With regards,

Peter Zougris
