

Dear sirs,

I am running to be a member of the WFHSS Executive Committee. I am a nurse, since 17 years ago. I work as an infection control nurse in a hospital. I started my work experience in the pediatric intensive care unit with immunocompromised children. During my work as Head of Nursing, I dedicated myself more frequently to sterilization due to the characteristics of my hospital. I was admitted to the G3E, with great honor. I have been able to learn every day from the members of this group until it became the SEDE, in which I have the honor of being secretary and learning from Dr. Vicente Zanón.

My dedication to sterilization has been growing every day, being for me today a passion more than a job.

Integrating this committee would allow me to share experiences and knowledge with the other international members. Obviously, it would be an honor and a pride to belong to this committee.

I commit to an unwavering commitment to the WFHSS.

I am waiting for a response that I hope positive.

Sincerely,

Jennifer Garcia Sanchez
