Re: Application to be re-elected to the WFHSS Executive Committee

It has been a humbling experience to be of service to the World Federation Executive Committee and its members for the past four years as the secretary and to serve on various committees and task groups. I have learned so much by working side by side with our various associations, members, and industry partners to help bring international education together across the globe.

With the past four years going by so fast, I look back on all that has been achieved, and all that still needs to be done for the common goals and mission of the WFHSS. I feel my continued service as an Executive Committee member will continue to bring the value and support needed over the next four years.

In addition to our mission and guidelines, I have continued to be part of the annual congress, where I serve as one of the members of the organization committee and continue to build strong and fruitful relationships with our industry partners who not only support us financially through partnerships but to support us with the most up-to-date scientific and educational research that will benefit our organization and members.

I will continue to bring all my experience, passion, connections, and drive to the WFHSS. I ask for your strong consideration and support in being nominated as a candidate for the World Federation Executive Committee this year, as well as your support and vote along with the General Assembly.

Damien S. Berg HSPA/ USA
WFHSS EC Member/Secretary
