Health Management Sterilization Research & Education

I am a health professional with a decade of dedicated service in the hospital sector. Over the past 10 years, I've overseen the operational and strategic management of a significant sterilisation department within one of Australia's largest trauma teaching hospitals.

My Expertise spans strategic planning, clinical education, research, procurement & contract advisory, and development & design. In the realm of sterilisation and infection control education, I proudly serve as the Scientific Officer for the WFHSS and teach sterilisation at TAFE NSW.

With a solid foundation in medical devices reprocessing, I bring a wealth of experience complemented by strong communication skills. My ability to collaborate with diverse stakeholder groups underscores my commitment to ensuring quality patient safety.

I'm passionate about making impactful contributions to healthcare, and I'm eager to connect with like-minded professionals who share a dedication to excellence and patient well-being. Let's explore opportunities for collaboration and innovation in the ever-evolving field of healthcare.
