Temperature Measurement and Registration

There were more than 40 people attended this event, including Vice Secretary of the Party Committee and Vice Dean Ma Li, Director of the Infection, Prevention and Control Department Yang Junhua, Director of the Department of Nursing Lai Jing, Director of the Comprehensive Surgery Department Chen Deqiang, Head Nurse of Comprehensive Surgery Department Chen Jie, Director of the Emergency Department Xia Junwei, Director of the Department of Stomatology Yang Zhengxiang and representatives of clinical departments.

Zhao Chun, a member of CSSD group of National Primary Medical Institution and the Head Nurse of the CSSD of the West China Longquan Hospital of Sichuan University hosted this event which theme was “Unveiling the Myths of CSSD, Building the Road of Cooperation”, and gave a detailed introduction of the layout, staff and the development history of CSSD.

Zhao Chun was hosting the event

In this event, we invited two experts, Zhou Xiaoli from the West China Hospital of Sichuan University and Zeng Shurong, the deputy head of the CSSD Group of National Primary Medical Institutions & West China Stomatological Hospital to give lectures on the topics of "How to Pre-treat Surgical Instruments" and "The Past and Present of Sterilization Technology", and each

department also had a discussion on the pre-treatment and sterilization of surgical instruments.

Invited Expert Zeng Shurong

Hot Discussion

Zeng Yan, the chief instructor of the CSSD, and An Lirong from the quality control center, made active interaction with the clinical representatives. They introduced the "little secrets" on the sterile packages to enhance the visitors' understanding of surgical instruments processing and sterile packages.

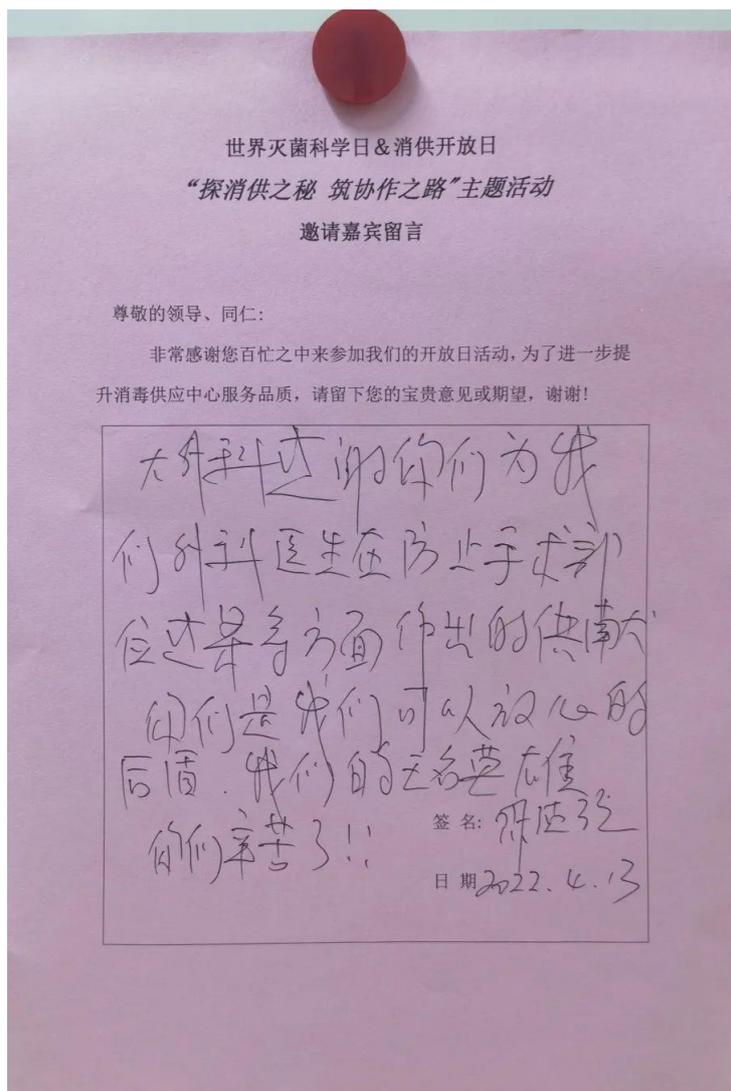

After the introduction by Zhao Chun, the lectures by Zhou Xiaoli and Zeng Shurong and the on-site visit, Chen Deqiang, the director of the Comprehensive Surgery Department, said that the International Day of Sterilisation Sciences & CSSD Open Day gave everyone a new understanding

of the working procedures of the CSSD and the professional knowledge of sterile supply. CSSD is the “liver of hospital” to decontaminate surgical instruments, and the “heart of hospital” to deliver “fresh blood” to all clinical departments. It is the backup of all clinical departments. Visitors gave high recognition to this event and provide valuable suggestions to the work of CSSD.

Chen Deqiang was giving a speech

Guest Message

Vice Secretary of the Party Committee and Vice Dean Ma Li summarized at the end of the activity. She said that the CSSD should make sure that patients, doctors and the hospital is satisfied by their work. We should focus on the quality and scientific research to further enhance the proficiency and social value of CSSD.

Ma Li was giving a summary speech (Second from Left)

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10 as the International Day of Sterilisation Sciences to promote instrument reprocessing procedures, to facilitate cooperation, information exchange and to share knowledge and experience. As a member of CSSD, we are dedicated to the core values of WFHSS: integrity, objectivity, openness, transparency, cooperation and support. It is the quality of instruments that relates to lives. Therefore, quality assurance is the mission of all staff in CSSD.
