2026年4月12日,第十届“世界灭菌科学日·消供开放日”公益主题活动在成都顺利举办。本次活动由成都市消毒协会主办,成都产品质量检验研究院有限责任公司、四川省产品质量监督检验检测院、成都市产品质量监督检验研究院联合承办,中国卫生监督协会消毒与感染控制专业委员会基层医疗机构消毒供应专业工作组协办。全国基层医疗机构消毒供应专业工作组副组长曾淑蓉教授组织四川省各级医疗机构消毒供应中心护士长、护理骨干共计40余人参加此次非常具有特色的世界灭菌科学日主题研学开放日活动。

On April 12, 2026, the 10th International Day of Sterilisation Sciences & CSSD Open Day event was successfully held in Chengdu. The event was organized by the Chengdu Disinfection Association, hosted by Chengdu Institute of Product Quality Inspection Co., Ltd., Sichuan Institute of Product Quality Supervision and Inspection, and Chengdu Product Quality Supervision and Inspection Institute, with support from the CSSD Working Group for Primary Healthcare

Institutions of the Disinfection and Infection Control Professional Committee of China Health Inspection Association. Professor Zeng Shurong, Deputy Leader of the CSSD Working Group for Primary Healthcare Institutions of the Disinfection and Infection Control Professional Committee of China Health Inspection Association, organized the participation of over 40 head nurses and key nursing staff from CSSDs across various healthcare institutions in Sichuan Province to attend this unique educational open day event.

本次活动以“**精准检测，透视风险——做医疗机构消毒灭菌的‘质量守门人’**”为核心主题，聚焦消毒供应全链条质量管控、灭菌检测技术升级、院感风险精准防控，搭建医疗机构消毒供应一线与权威质检机构深度对话的桥梁。

The event focused on the theme of “**Precise Detection and Risk Projection in Healthcare Sterilization —Supporting Quality and Safety in Healthcare Sterilization**”, with an emphasis on quality control throughout the sterile supply chain, the upgrading of sterilization testing technology, and the precise prevention and control of healthcare-associated infection risks. It aimed to build a bridge for in-depth dialogue between healthcare sterile supply teams and quality inspection institutions.

领导致辞启幕，明确安全使命

Opening Remarks: Defining Our Commitment to Safety

活动伊始，成都产品质量检验研究院有限责任公司副总经理**傅敬伟**进行致辞，对全体参会医护骨干的到来表示热烈欢迎，深度阐述国家级检验机构权威质检能力对医疗消毒灭菌安全、院感防控工作的核心支撑价值，为活动拉开了序幕。

At the start of the event, Fu Jingwei, Deputy General Manager of Chengdu Institute of Product Quality Inspection Co., Ltd., delivered opening remarks. He highlighted the importance of sterilization testing institutions in ensuring patient safety and reducing healthcare-associated infection risks.

成都市消毒协会副秘书长卢杰发表讲话，他明确指出消毒灭菌质量直接关系到医疗安全与患者健康，是医院感染防控的关键环节。期待本次医检联动研学，促进行业技术互通、标准共学、能力共建，持续夯实基层医疗感染防控屏障，助力基层消供专业能力整体升级。

Afterward, Lu Jie, Deputy Secretary-General of the Chengdu Disinfection Association, delivered remarks. He emphasized that the quality of disinfection and sterilization is closely linked to patient safety and infection prevention in healthcare settings. He looks forward to this collaboration between testing and healthcare institutions foster industry-wide technical exchange, shared learning of standards, and collective capacity building. This will continuously strengthen the infection prevention and control at the primary healthcare institutions and contribute to the overall improvement of sterile supply capabilities in primary healthcare institutions.

专题专业授课，夯实质控根基

Expert Lectures: Strengthening the Foundation of Quality Control

成都产品质量检验研究院有限公司高级工程师王维维，带来《检验检测机构能力与服务内涵解析-典型案例分享》专题授课，结合真实行业案例，拆解合规质检管理要点、风险识别与防控技巧，为参会人员厘清专业认知、夯实合规基础。

Wang Weiwei, Senior Engineer at Chengdu Institute of Product Quality Inspection Co., Ltd., delivered a presentation titled “Capabilities and Service Scope of Testing Institutions: Case Studies.” By analyzing real cases, he highlighted the key aspects of compliance in quality control, risk identification, and infection prevention, helping participants gain a clearer professional understanding and strengthen their knowledge of compliance fundamentals.

张一宁围绕《灭菌检测技术的新科技：更准，更快，更智能》展开分享，解读全球前沿灭菌监测创新技术与智能化应用方案，拓宽参会人员行业视野。

Zhang Yining gave a presentation titled “New Technologies in Sterilization Monitoring: More Accurate, Faster, and Smarter.” Focusing on emerging trends in the field, he shared recent global developments in sterilization monitoring technologies. His presentation broadened participants’ perspectives on industry innovation.

互动研讨交流，破解一线难题

Interactive Discussions: Tackling Frontline Challenges

互动研讨交流环节气氛热烈。参会的各位护士长与护理骨干，结合日常科室器械处理、灭菌监测、质量追溯、风险排查等实际工作中的疑点、难点问题，与质检专家、行业大咖面对面深度探讨、现场答疑解惑，真正做到带着问题来、满载收获归。

The interactive discussion session was filled with enthusiasm. During the session, head nurses and key nursing staff engaged in deep discussions with quality inspection experts and industry leaders, addressing practical challenges and questions related to routine equipment reprocessing, sterilization monitoring, quality traceability, and risk identification. Participants had the opportunity to ask questions and receive detailed answers, leaving the session with valuable insights and practical takeaways.

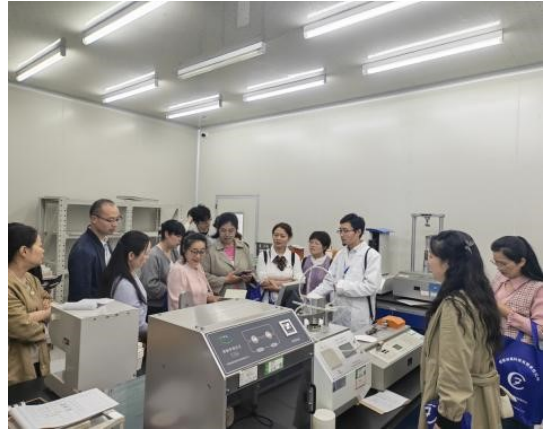

实地观摩实验室，感受科学质控

On-Site Lab Tour: Experiencing Scientific Quality Control

随后，全体研学人员分组走进质检院专业实验室，实地参观检验检测全流程、高精尖实验设备与标准化质控体系，沉浸式感受国家级质检平台的严谨管理与硬核技术实力，实现消毒供应临床使用端与官方权威检测端的零距离对接，让看不见的灭菌科学，变成可视化、可感知、可借鉴的专业标准参考。

Afterwards, the participants were divided into groups and visited the professional laboratories of the inspection agency. They observed the entire testing process, advanced experimental equipment, and the standardized quality control system. This immersive experience allowed them to witness firsthand the rigorous management and cutting-edge technical capabilities of a national-level quality inspection platform. The visit also bridged the gap between the clinical end users and testing institutions, transforming the invisible science of sterilization into a visible, tangible, and professionally relevant standard.

研学成效丰硕，坚守质量防线

Educational Success: Upholding the Quality Control Standard

本次研学活动，打通了医疗机构消毒供应一线与官方质检机构的交流壁垒，紧扣世界灭菌科学日科普与专业提升宗旨，通过权威授课、实地观摩、深度交流相结合的形式，实现消毒供应“使用端”与“检测端”零距离对接，让“看不见的灭菌”成为“看得见的守护”。有效提升了基层消毒供应管理团队的专业理论水平、风险识别能力与标准化管理能力，进一步强化了全体参会人员“质量为先、安全为本”的责任意识。参与人员纷纷表示，将以此次研学为契机，严守标准、规范操作，当好医疗安全“质量守门人”。

The event successfully facilitated communication between sterile supply teams and testing institutions, fostering greater awareness and professional growth. By combining expert presentations, site visits, and interactive discussions, the event bridged the gap between end users and testing bodies, making the sterilization process more transparent and improving understanding of how quality risks are identified and managed. It also strengthened the professional expertise, risk identification skills, and adherence to standardized practices among primary sterile supply teams, while emphasizing participants' responsibility toward quality and patient safety. Attendees committed to maintaining high standards, ensuring compliance, and safeguarding medical safety.

未来，四川基层医疗机构消毒供应学组将持续联动行业协会、权威质检技术平台，持续打造高质量、高实用性的专业赋能研学公益活动，不断筑牢医疗机构感染防控底线，守护人民群众就医诊疗安全。

Looking ahead, the Sichuan CSSD Working Group for Primary Healthcare Institutions will continue to drive industry growth by collaborating with key partners to organize targeted, practical initiatives. It will also work to promote safer practices across the sector, contributing to both healthcare improvement and public health.
