The World Federation for Hospital Sterilisation Sciences(WFHSS) designates April 10 as the International Day of Sterilisation Sciences, calling on the global CSSDs to open their doors. By visiting the CSSD, people have a better understanding of the reprocessing of reusable medical devices and related sterilization sciences and enhance trust between different departments. To respond the call of WFHSS, a CSSD open day with the theme of "Unveiling the myths of CSSD, Building a way of Cooperation" was held on April 8, 2022 at the CSSD in Tianfu Campus of Chengdu No.7 People's Hospital. This event was hosted by the nursing department of Chengdu No.7 People's Hospital and co-organized by the publicity department of Chengdu No.7 People's Hospital and CSSD group of Sterilization and Infection Control Professional Committee of China Health Inspection Association.

For this event, the staff in CSSD prepared invitation cards with small gifts. These cards were sent to the relevant departments and clinical departments.

Posters were placed in the outpatient lobby and inpatient lobby to inform patients and their families.

Inpatient lobby

They also made a video to publicize this event and its theme. This video is about the stories of a staff in CSSD.

This event received strong support from the hospital leaders, nursing department, hospital infection management department and clinical departments. On that day, vice dean of the Chengdu No.7 People's Hospital Li Changlin, Zhang Yan and Zhou Han, chief accountant Long Yun, heads of relevant departments and representatives of clinical departments participated in this event. There were 30 guests in total.

Before the event started, guests signed the "signature wall" at the entrance of CSSD.

Signature Wall

The guests were then accompanied by Liu Tun, a member of CSSD group of National Primary Medical Institution, head nurse, to visit each area and learn in detail about the CSSD, its use of equipment and facilities, and the whole procedure of instrument reprocessing.

Visit the CSSD

At the end of this event, the staff of CSSD gave each guest a hand-made gift. It was such a successful event!

Through this event, guests understood more about the CSSD. They gained the knowledge on cleaning, disinfection and sterilization. The understanding and cooperation between the CSSD and clinical departments was enhanced. The mutual understanding between different departments will be conducive to clinical services. CSSD will stay true to their mission and protect patient safety.
