

## Unveiling the Mystery: The CSSD of the Fourth Hospital of Changsha celebrates the International Day of Sterilisation Sciences

On April 11th, the CSSD of the Binshuixincheng Campus of the Fourth Hospital of Changsha held the International Day of Sterilisation Sciences event with the theme of “Exploring the secrets of CSSD, Building cooperation and communication”. More than 50 people participated in this event, including CSSD head nurses of four provincial-level hospitals, three municipal hospitals and two medical facilities, as well as staff from the Fourth Hospital of Changsha.

Chen Liping, the head nurse of the CSSD, led everyone to visit the CSSD and introduced the professional knowledge and workflow of disinfection and sterilization to everyone. Through on-site observation and interactive communication, the visitors witnessed the "transformation" of contaminated medical devices, changing their understanding of reprocessing in the past. Everyone praised the work attitude and professional skills of the staff in the CSSD.

Then, Zhang Li, the head nurse, lead head nurses from the Binshui New Area Campus to carry out problem oriented nursing rounds in the CSSD, which solves the prominent problems encountered and promotes everyone's understanding of the CSSD.

This event has increased the understanding of reprocessing process of CSSD among visitors, enhanced trust between departments, and laid the foundation for building cooperation and communication.
