

Effective Communication, Innovative Development | The 8th International Day of Sterilisation Sciences · CSSD Open Day Activity (The Second One)

Hosted by Genertec 363 Hospital

Contributed by: Mao Yuan

Member of CSSD group of Sterilization and Infection Control

Professional Committee of China Health Inspection Association

Genertec 363 Hospital

2024.04.10 第八届  
INTERNATIONAL DAY OF STERILIZATION SCIENCE 2024  
世界灭菌科学日  
消供开放日  
沟通赋能·创新发展

主办：三六三医院  
协办：成都市消毒供应医疗质量控制中心  
中国卫生监督协会消毒与感染控制专业委员会基层医疗机构消毒供应学组

## 邀请函

医院灭菌科学联盟（WFHSS）设立4月10日为“世界灭菌科学日”，号召全球的消毒供应中心这一天对外开放，为响应WFHSS的号召，增进消毒供应与临床彼此间理解与协作，更好地为临床服务，消毒供应中心于3月28日（星期四）举办以“沟通赋能 创新发展”为主题的对外开放活动，期待您的莅临。

活动日期：2024年3月28日 14:00-15:00  
活动地址：三六三医院犀浦院区消毒供应中心

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10th as the International Day of Sterilisation Sciences, calling on the global CSSDs to open their doors on this day so that more people will come to the mysterious CSSD and understand the safety of reprocessing processes and scientific knowledge of sterilization.

To actively answer the call of WFHSS and better serve the clinical departments, on March 28, 2024, an Open Day activity sponsored by Genertec 363 Hospital and co-organized by Chengdu Sterile Supply Quality Control Center, the CSSD group of Sterilization and Infection Control Professional Committee of China Health Inspection Association was successfully held in the CSSD of Genertec 363 Hospital, with the theme of “Effective Communication, Innovative Development”.

This activity included various parts such as lectures, Q&A, visiting and reprocessing steps of reusable instruments, aiming to improve the communication and understanding between CSSD and clinical departments.

A total of over 30 people, including Tang Yizhi, deputy dean of Genertec 363 Hospital, Fang Guirong, director of the Nursing Department, and leaders of other relevant functional departments, as well as front-line staff of clinical departments, patients and family representatives, came to the site to participate in the event. The open day also invited Deng Lihua, an expert from the Chengdu Sterile Supply Quality Control Center and deputy director of the Nursing Department of Genertec Chengfei Hospital, and Liu Yi, the head nurse of the Central Sterile Supply Center of Genertec Chengfei Hospital, to participate in the event.

Sign-in

Opening

This event was hosted by Mao Yuan, the head nurse of the CSSD, who introduced the purpose and significance of the event.

Host: Head Nurse Mao Yuan

Tang Yizhi, deputy dean of the hospital, delivered a speech for the event. He affirmed the key role played by the CSSD in hospital infection prevention and control, materials support, and response to public health emergencies. He hoped that the CSSD would continue to strengthen communication with clinical departments to build solid foundation for patient safety.

Speaking at the event by Deputy dean Tang Yizhi

Fang Guirong, Chairman of the Genertec Medical Nursing Management Quality Control Center and Director of the Nursing Department of Genertec 363 Hospital, attended this event and delivered a speech. She affirmed the development and achievements of the CSSD in recent years. The "Open Day" activity provided an opportunity for the whole hospital to understand its work and enhanced communication, collaboration and understanding between the CSSD and clinical departments.

Fang Guirong, director of the Nursing Department, delivered a speech

### Speech on Popular Science

In the popular science session, Chang Yifang, Qin Qin, and Chen Ao from the CSSD spoke on cleaning, disinfection, packaging, sterilization and other related knowledge.

Chang Yifang from the CSSD explained *Why does Eto Sterilization Take so long?*

Qin Qin from CSSD spoke on *How to Pack*

Chen Ao from CSSD spoke *Cleaning in CSSD*

### On-site Tour

During the on-site visit, everyone walked into the mysterious CSSD and observed the "reprocessing of reusable instruments", allowing everyone to understand the ten major processes and witness the "miraculous turn" of contaminated instruments.

In the Inspection, Packaging and Sterilization Area, the staff explained the regional divisions, daily workflow, operating technical requirements and precautions.

#### Inspection, Packaging and Sterilization Area

In the Sterile Storage and Distribution Area, the staff explained the environmental requirements of the area, the unloading of sterilized items, the distribution process, etc.

#### Sterile Storage and Distribution Area

In the Decontamination Area, everyone witnessed the return, classification, cleaning, disinfection and other operating procedures of reusable instruments. The staff particularly emphasized the importance of instrument pretreatment at point of use.

Decontamination Area

This open day event is the third time for Genertec 363 Hospital to have it. The CSSD will continue to hold it in different forms to build a communication bridge with clinical departments and understand and meet clinical needs.

CSSD people will always adhere to the "patient-centered" service mission, constantly improve quality and service awareness, protect the patient safety and safeguard the hospital infection prevention and control.
