

The 2024 CSSD Open Day Event of Guizhou Provincial People's Hospital

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10 as the International Day of Sterilisation Sciences, calling on global CSSDs to open their doors on this day and spread knowledge on the entire process of instrument reprocessing and related sterilization sciences.

In response to the call of the WFHSS, the CSSD of Guizhou Provincial People's Hospital held the "2024 International Day of Sterilisation Sciences & CSSD Open Day Event" on April 10, 2024, at the Guanshanhu Campus. This event aims to promote the popularization and exchange of sterilization sciences, further enhancing the management level and professional skills of hospital CSSD.

This event not only vividly display the layout of the CSSD to the public, but also served as an important opportunity to showcase the professionalism and significance of the CSSD. The CSSD, located in the lush green environment of Guanshanhu Campus, successfully attracted over 270 visitors to join the event from within the hospital and the province with its advanced facilities and rigorous standardized operating procedures.

During the event, the CSSD's staff introduced the department's environment, culture, and advanced facilities to the guests, explaining in detail the whole process of reprocessing medical instrument from recycling, classification, cleaning, disinfection, drying, inspection, packaging to sterilization. Each step strictly adheres to national standards and hospital regulations to ensure that every instrument meets sterile requirements, providing strong assurance for patient safety.

The head nurse of the CSSD of Guizhou Provincial People's Hospital stated, "We are always committed to enhancing the modernization and standardization of CSSD's work, ensuring that every piece of medical instrument meets the highest sterilization standard. Through this Open Day event, we hope more and more people can understand and support our work, and we can jointly contribute to the improvement of the quality of medical services."

The Open Day event serves as a window connecting the CSSD with the outside world. It showcases the modern facilities and standardized operational processes of the CSSD at the People's Hospital of Guizhou Province, providing the public with a deeper understanding of the work of hospital's CSSD. In the future, the CSSD at the People's Hospital of Guizhou Province will continue to focus on improving service quality to safeguard the health of patients.
