

Sterilization is our mission and cooperation is the key to CSSD

—Hefei First People's Hospital successfully held the International Day of Sterilisation Sciences

2024

世界灭菌科学日 消毒供应中心开放日

INTERNATIONAL DAY OF STERILIZATION SCIENCES & CSSD OPEN DAY

无菌使命,合作“供”赢

全球医院灭菌科学协会(WFHSS) 设立4月10日为“世界灭菌科学日”，号召这一天全球的消毒供应中心都对外开放，邀请医院的同仁们走进消毒供应中心，参观环境，了解工作流程，通过互动沟通，加深彼此间的了解和信任，促进工作良性互动。

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10 as the International Day of Sterilization Sciences, calling on global CSSDs to open their doors and invite hospital colleagues to visit the environment, learn the workflow, and enhance mutual understanding and trust and promote positive interactions through interactive communication.

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10th as the International Day of Sterilisation Sciences, calling on the global CSSDs to open their doors on this day to publicize the reprocessing and sterilization knowledge, promote communication and trust.

In the spring day full of vitality, we celebrated the International Day of Sterilisation Sciences. In order to actively respond to the call of the World Federation for Hospital Sterilisation Sciences (WFHSS), further popularize sterilization knowledge, and enhance the understanding and trust of various departments in the work of CSSD, we successfully held a unique open day event on April 8. With the theme of “Sterilization is our mission and cooperation is the key to CSSD”, this event aimed to provide orthopedic surgeons with an in-depth understanding of the workflow, equipment and facilities of the CSSD and the importance of sterilization science through on-site visits, exchanges and interactions.

Deputy dean Ning Rende, director of the Medical Department Ma Li, Director of the Infection Prevention and Control Department Wang Xiaohong, Director of the Nursing Department Wu Xufeng, Director of the Department of Traumatology and Orthopedics Xie Jie, Director of the Department of Orthopedics and Joints Jiang Hua, Director of the Department of Spine and Orthopedics Zhang Zhidong, and orthopedic surgeons attended this event.

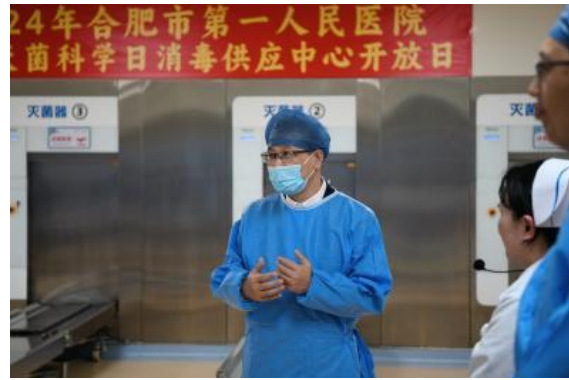

At the beginning, Ma Li, Director of the Medical Department, delivered a passionate speech. He emphasized the importance of CSSD in hospital infection control and spoke highly of the work of CSSD. He hoped that through this open day event, communication and collaboration among various departments could be enhanced to jointly protect patient safety. Head nurse Sun Hong introduced the work flow, facilities and quality control measures, giving visitors more direct and incisive understanding of CSSD.

Then, under the guidance of Shen Lu, team leader of Decontamination Area, and Li Suling, team leader of Inspection, Packaging and Sterilization Area, the participants visited key areas such as the Decontamination Area, Inspection Packaging and Sterilization Area. During the visit, everyone expressed their appreciation for the on-site visits and exchanges. They deeply understood the importance of sterilization work in ensuring patient safety and preventing hospital infections, and they would trust and support the work of CSSD.

At the end of the event, deputy dean Ning Rende made a concluding speech, saying that this open day event not only demonstrated the professionalism of CSSD, but also further enhanced the importance and understanding of sterilization work among our colleagues from other departments. We believe that with the joint efforts of all staff, we will be able to build a solid line of defense to protect patient safety.
