# Welcome Message 欢迎辞

Dear colleagues and friends,

It is my great pleasure to invite you to join the Seventh International Infection Control Conference (IICC) hosted by the Hong Kong Infection Control Nurses' Association (HKICNA), scheduled to be held on the 1st-3rd July 2016 at the Hong Kong Convention and Exhibition Centre.

The seventh IICC will provide you with an excellent platform to discover solutions to challenging infection prevention and control issues, to learn about the latest research and stay up-to-date on the best practices, and to create a safer world through the prevention and control of infection.

The IICC is a conference organised biennially and the theme for the Seventh in 2016 is "Advances, Challenges and Controversies". We have already invited many internationally renowned speakers, both local and from abroad, to review the latest evidence and cutting edge information on infection control with us.

Apart from these discussions, the conference also provides participants with a valuable opportunity for academic and professional networking and collaboration. Overseas participants may also take this opportunity to explore the beauty and attraction of Hong Kong – a dynamic and vibrant city that fuses together rich Chinese tradition and modern Western influence.

You are cordially invited to join us to share the valuable experience together and we look forward to meeting you there.
