

# Scientific Disinfection and Sterilization, Powerful and Safe Assurance

## Jiangxi Chest Hospital CSSD Open Day Activity

April 10, 2024 is the 8th International Day of Sterilisation Sciences.

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10 as the International Day of Sterilisation Sciences, calling on global CSSDs to open their doors, spread knowledge of instrument reprocessing process and related sterilization sciences, deepen people's understanding of CSSD, and promote the safety and effectiveness of the supply and use of sterile items.

CSSD of Jiangxi Chest Hospital sincerely invited the members of the leading Party Committee of the hospital, section chief of Quality Control Department, section chief of IPC Department, director of Nursing Department, and head nurses from various clinical departments to participate in this Open Day Activity.

## Registration and Photo Time

### Introduction of CSSD

In this CSSD Open Day Activity, ZHOU, RAO, and CAI introduced the different areas of the CSSD, as well as the processes of cleaning, disinfection, sterilization and distribution of instruments.

### Theme Speech

Then, CSSD head nurse SUN, CAI, and MAO from central lab delivered a theme speech.

### **Game-playing**

After learning about the CSSD, here comes the exciting Game-playing time. Playing games not only teach participants knowledge about CSSD, but also enhance the interaction between departments and strengthen the friendship.

In future work, the CSSD will always remember its original intention and mission, focus on needs of clinical departments, improve work quality, strive to enhance instrument reprocessing capabilities, and support the safety and efficiency of various clinical services. Meanwhile, CSSD as well hope leaders and clinical departments may continue to support the work as always, communicate more if there are any issues, and solve them together.
