CSSD of Kaifeng Central Hospital

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10th as the International Day of Sterilisation Sciences, calling on the global CSSDs to open their doors on this day.

In order to actively respond to the call of WFHSS and better publicize the importance of scientific sterilization, it was held by the CSSD of Kaifeng Central Hospital with the theme of "Openness and Integration Promotes Advancement, Scientific Management Ensures Safety" on March 29, 2024.

This event was hosted by Tang Jinghua, director of CSSD.

Li Huaqiang, Secretary of the Party Committee of the hospital, Wang Jing, Director of the Nursing Department, Liu Jie, Deputy Director, Huang Huili, Deputy Chief of the Infection Prevention and Control Department, as well as directors, head nurses, and department representatives of surgical departments attended this event. All guests signed and took photos one after another at the signature wall at the entrance of the CSSD.

Li Huaqiang, Secretary of the Party Committee of the hospital, delivered a speech. Secretary Li pointed out that the CSSD, as a key department for hospital infections, played an extremely important role in the review of tertiary A and large hospital inspections. Many directors and head nurses walked into the CSSD for the first time. I hoped everyone could understand their work and think about how to cooperate with each other in the future.

Committee of the hospital**

Zhu Shujing, head nurse of CSSD, explained the knowledge about the International Day of Sterilisation Sciences

Zhu Shujing, the head nurse of CSSD, explained the knowledge about the International Day of Sterilisation Sciences, and led the guests to visit the Sterile Storage Area, Inspection, Packaging and Sterilization Area, and Decontamination Area. Deng Yuxin, Zhao Wenping, Yang Wenxiang, and Li Xin, respectively explained in detail the environment, equipment and facilities, and work processes, and answered questions.

In the Inspection, Packaging and Sterilization Area, Ma Yingying and Liu Jing demonstrated the insulation inspection, care and assembly of lumen instruments. Zhang Yuanyuan and Ma Hongfei demonstrated the standardized packaging of lumen instruments. Zhang Huiju and Xu Yinghua demonstrated the manual cleaning of lumens in the Decontamination Area.

Demonstrations

Symposium

At the end of the visit, all the guests had in-depth exchanges and communication warmly and harmoniously. In response to the questions raised by the surgical director about the use of surgical instruments and the cleaning and sterilization of flexible endoscopes, Tang Jinghua and Zhu Shujing gave detailed answers one by one. During this visit, the guests

highly affirmed the work of the CSSD. It deepened the guests' understanding and changed their previous impressions. They all believed that the work in CSSD was complex and labor-intensive. It required a professional team with high level skills and strong sense of responsibility.

The CSSD of Kaifeng Central Hospital will always adhere to the service concept of "patient and clinical needs oriented ", continuously strengthen professional technology and connotation construction, optimize work processes, and contribute to the patient safety and infection prevention and control work.
