南京市高淳人民医院消毒供应中心 2023 年开放日活动

2023 CSSD Open Day in the CSSD of the Nanjing Gaochun People's Hospital

✓ 消毒供应中心 2023 年开放日活动 2023 CSSD Open Day

为积极响应 WFHSS (世界灭菌科学联盟) 消毒供应中心对外开放的号召，让更多的人了解消毒供应工作，宣传复用器械再处理流程及灭菌科学知识，4月12日上午我院消毒供应中心成功举办第三次开放日活动。

The World Federation for Hospital Sterilisation Sciences (WFHSS) calls on the global CSSDs to open their doors and introduce the reprocessing process and sterilization science. To respond to the call of WFHSS, on 12 April, the CSSD of the Nanjing Gaochun People's Hospital held the 3rd CSSD Open Day event.

本次活动特邀医院党委书记王东明、院长高玉华、护理部副主任李秀珍、院感科副科长史兰萍、妇儿科及急诊医学科医护代表共计二十余位嘉宾莅临参加。活动随着嘉宾入场签到仪式拉开帷幕，消毒供应中心护士长刘三玉通过汇报 PPT 向嘉宾介绍消毒供应中心基本情况、科室团队建设、近年来取得工作成果及未来发展前景。汇报结束后由科室 2 位区域组长带领嘉宾参观内部工作环境，通过现场观摩、工作流程体验的方式和消毒供应中心零距离接触。

More than 20 guests, including Wang Dongming, the Secretary of the Hospital Party Committee, Gao Yuhua, the President of the hospital, Li Xiuzhen, Deputy Director of the Nursing Department, Shi Lanping, Deputy Director of the Infection Control Department, and medical representatives from the Obstetrics, Gynecology, Pediatrics, and Emergency Departments, were invited to this event. The event began with the sign-in wall ceremony. Liu Sanyu, the head nurse of the CSSD, introduced the condition of the CSSD and the team, recent achievements and future plans to the guests. After this report, two regional leaders led the guests to visit their working environment, allowing guests to contact with the CSSD through on-site visit and practice.

嘉宾们对消毒供应中心整洁明亮的环境、现代化的设施设备、熟练的流水线作业赞赏有加，大家纷纷在操作台前驻足，现场体验器械检查、包装、清洗流程。参观结束后，所有人就临床器械使用后预处理、无菌物品

转运、储存、交接等问题展开热烈讨论，大家纷纷表态回去后一定将活动内容科内传达并组织学习，做好器械预处理第一步，按规范要求储存使用无菌物品。

The guests highly praised the clean environment, modern facilities and equipment, and skilled staff of the CSSD. Everyone stopped at the operation desk to experience the inspection, packing, and cleaning of instruments. After the visit, everyone had a discussion on the pre-treatment of clinical instruments after use, transfer, storage, and handover of sterile items. Everyone expressed their commitment to conveying the content within the department. They will ensure the pre-treatment and use sterile items according to standards.

护理部副主任李秀珍作总结。她表示，消毒供应中心是医院感染控制的重点部门，承担了医疗机构复用器械再处理及无菌物品发放工作，在医院感染防控、物资保障、积极应对突发公共卫生事件等方面有着不可或缺的重要作用。近年来，我院消毒供应中心在护士长的带领下，严格按照标准践行规范，各项工作取得了长足的进步。相信通过此次开放日交流活动，

临床科室与消毒供应中心会更加密切配合，全力保障患者安全。

Li Xiuzhen, Deputy Director of the Nursing Department, made a summary. She stated that the CSSD is a key department for hospital infection control, responsible for the reprocessing of reusable instruments and the distribution of sterile items. It plays an indispensable and important role in hospital infection prevention and control, material support, and responding to public health emergencies. In recent years, under the leadership of the head nurse, the CSSD of this hospital has strictly followed the standards, and made significant progress in various work. It is believed that through this open day activity, the clinical departments and the CSSD will work more closely to ensure the patient safety.
