

"Communication and Innovation Empower Development"

Documentary of the The 8th International Day of Sterilisation Sciences

CSSD Open Day Event in the Qianwei People's Hospital

By: Dan Wenyi, Luo Yu, and Wang Chunrong from the Qianwei People's Hospital

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10 as the International Day of Sterilisation Sciences, calling on the global CSSDs to open their doors and spread the knowledge on the reprocessing of reusable medical devices.

On April 10th, the first CSSD Open Day event with the theme of "Communication and Innovation Empower Development" was held in the CSSD of Qianwei People's Hospital. This event was organized by the Qianwei Sterile Supply Quality Control Center. More than 10 medical institutions in the county participated in this event.

Zhu Xiaodan, the secretary of the party committee

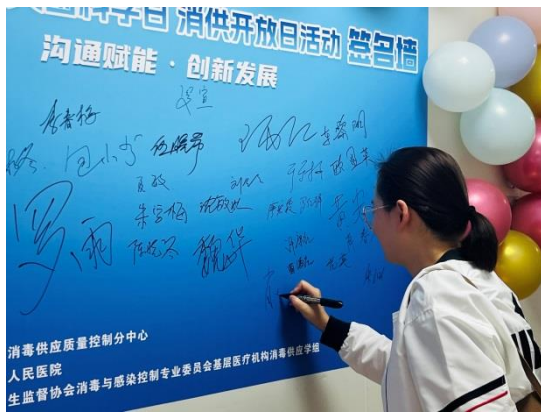

Duan Yongjian, vice president of the hospital

Luo Xuan, the director of the nursing department

Yang Qin, the director of the infection control department

Xiao Dong, the head nurse of the operation room

Guests include Duan Yongjian, the administrative director of the Qianwei Sterile Supply Quality Control Center and the vice president of the hospital; Luo Xuan, the business director of the Qianwei Sterile Supply Quality Control Center and the director of the nursing department; Yang Qin, the director of the infection control department, and head nurses of clinical departments from more than 10 medical institutions. This activity is hosted by Dan Wenyi, the head nurse of the CSSD of Qianwei People's Hospital. This activity is rich in content, including discussion session, quiz session, practical competitions, etc. Through interaction, the basic concepts, methods, and importance of sterilization are vividly and concisely popularized to everyone.

Duan Yongjian expressed sincere congratulations on the success of this event. He encouraged everyone to hold Open Day events, continuously strengthen communication among departments and institutions, and jointly promote the high-quality development of sterile supply in hospitals at all levels within the county.

Discussion Session

Quiz Session

Practice Session

The practical competition was the last session of the day, and the atmosphere at the competition was tense and enthusiastic. The participants were fully concentrated on the competition. They strictly followed the disinfection and sterilization operation process, demonstrating their professional skills and rigorous work attitude. The judges conducted a comprehensive evaluation based on operational norms, proficiency, and ability to respond to unexpected situations. After several rounds of competitions, the first, second, and third prizes were selected, and Luo Xuan and Yang Qin presented awards respectively.

**First Prize: Luo Yu and Wang Yuhong from the Qianwei People's Hospital
Award Presenter: Luo Xuan**

Second Prize: Fan Ying and Xu Kanghong from the Luocheng Central Health Center

Award Presenter: Yang Qin

Third Prize: Li Chunmei and Chen Feiyao from the Qianwei Hospital of Chinese Medicine

Award Presenter: Chen Xiaoqin

With the rapid development of modern medical technology, sterilization technology, as an important line of defense to ensure public health, its significance is increasingly prominent. We all hope that through this event, healthcare staff can continuously deepen the understanding of sterilization technology and contribute to building a safer and healthier medical environment.
