

## Thorough Cleaning Makes Efficient Sterilization

### Solid Defense Provides Safety Assurance

#### The 3rd CSSD Open Day event held by The First Affiliated Hospital of Chongqing Medical and Pharmaceutical College

In response to the call of the World Federation for Hospital Sterilization Sciences (WFHSS), the CSSD of Chongqing No.6 People's Hospital held the International Day of Sterilisation Sciences and the 3rd CSSD Open Day event on April 10, 2024, under the theme "Thorough Cleaning Makes Efficient Sterilization, Solid Defense Provides Safety Assurance." The event was organized by the Hospital's Infection Control Department and hosted by the CSSD, directors, head nurses and key staff from the Medical Equipment Department, Nursing Department, and other clinical departments participated.

The event began with CSSD Nurse LUO Yi introducing the theme, significance, and agenda of this event. The goal of this event is to help everyone understand the professional knowledge, work processes, and quality management of the CSSD.

Chief MA Xiaoling from the Hospital Infection Control Department delivered a speech emphasizing the importance of the CSSD in hospital infection control. She stressed the need for quality control at every stage, thorough cleaning and ensuring sterilization compliance. She also encouraged clinical departments to enhance their focus on and cooperation in instrument pretreatment to collectively improve instrument cleaning quality.

CSSD Head nurse PAN Feng expressed gratitude for everyone's participation, reviewed the content of the previous two open day events, provided an overview of the department's basic information, the importance of instrument cleaning procedures, quality improvement cases, and finally, shared the theme for next year's open day.

Subsequently, the visitors donned PPE and, guided by the staff, entered the work area in an orderly manner to learn about the relevant work processes, and actively participated in the on-site inspection of instrument cleaning quality and functionality.

After the visit, everyone engaged in sincere discussions and in-depth exploration of the issues encountered in their daily work, providing valuable opinions and suggestions for the CSSD's work.

This open day event enhanced communication between the CSSD and various clinical departments. The CSSD will continue to enhance its professional capabilities, strictly adhere to standards, follow guidelines, ensure patient safety, and promote the high-quality development of the hospital.

### **Popularization of Science**

The World Federation for Hospital Sterilisation Sciences (WFHSS) designates April 10 as the International Day of Sterilisation Sciences, calling on global CSSDs to open their doors, and invite more people to visit the CSSD and learn the reprocessing process of reusable instrument.
