

**Openness and Integration to Promote Development, Scientific Management to
Ensure Safety**

—— 2021 International Day of Sterilisation Sciences & Open House Day

by CSSD of The First Affiliated Hospital of Zhengzhou University

The World Federation for Hospital Sterilisation Sciences (WFHSSS) established April 10 as the International Day of Sterilisation Sciences, calling on the global CSSDs to open their departments to the public on this day, which is committed to publicizing the full procedure of instrument reprocessing and related sterilization science knowledge.

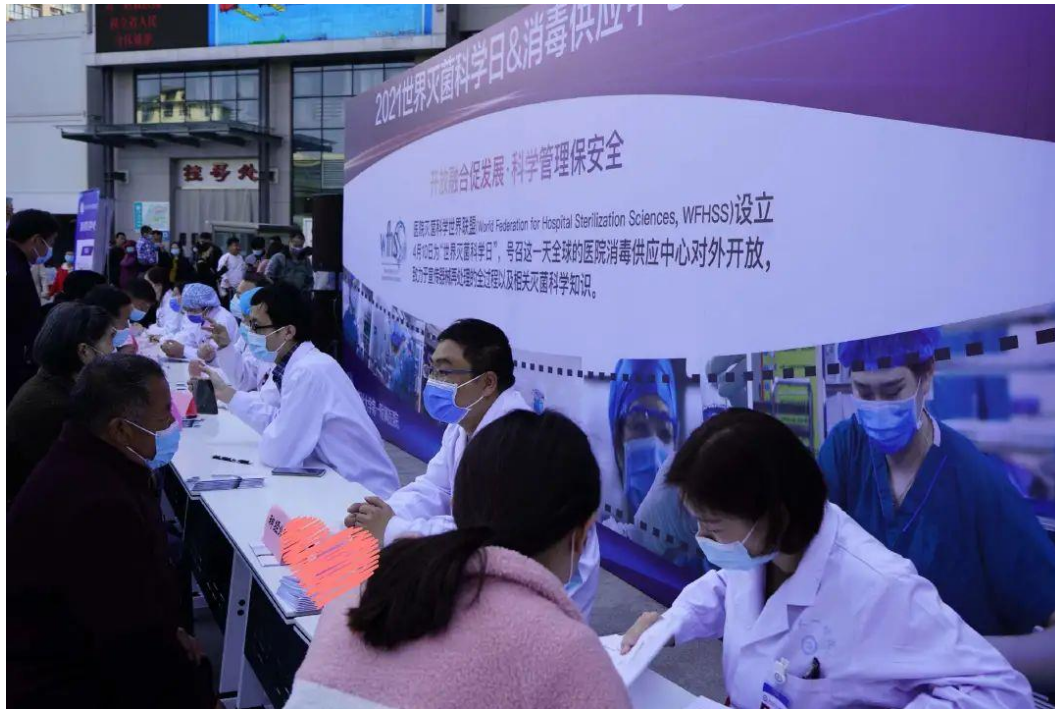

On April 10, 2021, on the occasion of the fifth International Day of Sterilisation Sciences, the CSSD of the First Affiliated Hospital of Zhengzhou University, Heyi Campus organized free consultation and science publicity activities for celebrating 2021 International Day of Sterilisation Sciences & CSSD Opening House Day at the outpatient square of Heyi Campus. This event has invited 8 experts and professors from ophthalmology, neurosurgery, hepatobiliary surgery, orthopedics, urology, gastroenterology, respiratory medicine, and cardiovascular medicine department for free consultation. At the same time, deputy director Lou Xiaoping and deputy director Xu Haili of our hospital's nursing department, and more than 30 head nurses such as Chai Yuxia, Yuan Yuanke and some the head nurses of inpatient wards were invited to participate in this event. This free consultation has benefited more than 200 people in total.

Li Xiaoli, head nurse of the CSSD of our hospital, presided over the opening ceremony, and deputy director Lou Xiaoping of Nursing Department delivered an opening speech.

At the site of the free clinical treatment, experts and professors carefully checked the patient's examination results and answered their questions patiently.

At the site of science publicity, volunteers from the CSSD carried out knowledge propaganda on daily cleaning and disinfection and measures of COVID-19 prevention and control. Patients and their families actively participated in it.

At the site of activity, a total of more than 30 people including Deputy Director Lou Xiaoping, Deputy Director Xu Haili, clinical experts, head nurses and colleagues in the other hospital visited the CSSD Branch 1 & 2 of the Heyi Campus and conducted communication and exchanged ideas.

The theme activity of the open house day came to a close with the end of the visit. Through this activity, the trust and understanding between the clinical departments and the CSSD were enhanced. Leaders and experts gave a good appraisal of the modernization, scientization, informatization and fine management development of CSSD in our hospital and spoke highly of the professional spirit of CSSD staffs for their earnest and meticulousity.

Our CSSD will firmly follow the path of scientific development with a more "open attitude"; actively ensure patient safety with more "scientific management" to benefit the general public. We believe that the CSSD of our hospital will continue to forge ahead and strive for perfection in the future development of CSSD profession, so as to provide a strong guarantee for the high-quality development of our hospital.
